EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Tanger on 5/18/2005.

The application has been amended as follows:

- a) Claim 23, line 19, after "time" insert --through the other branch and enclosure--.
- b) Claim 38, line 7, delete "to be added to" and replace with --in--; line 8, after "gas" insert --but lacks means for adding sterilant--; line 8, delete "which" and replace with --said--.
- c) Claim 39, line 1, delete "further comprising" and replace with --wherein the means for circulating gas further comprises--.
- d) Claim 40, line 1, delete "wherein fans are provided" and replace with --wherein the means for circulating gas further comprises fans--.

The following is an examiner's statement of reasons for allowance: USP 5,876,664 discloses a device and method similar to the instant claimed invention. However the patent does not teach or suggest a method of sterilizing a sealable enclosure by continuing to circulate a carrier gas substantially saturated with sterilant vapor for a predetermined time through one branch of two parallel branches and the enclosure, wherein in the one branch carrier gas is heated and sterilant is added.

Art Unit: 1744

Nor does the patent teach or suggest an apparatus for sterilizing a sealable enclosure comprising two parallel branches as defined in the claims in combination with the other elements claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
